Notice to Shareholders of:

Amundi Funds

30 November 2020

Luxembourg

Responsible investment has always been central to Amundi's investment policy. Since our creation, we have regarded responsible investment as one of our founding pillars. Our commitment is based on two convictions: That companies and investors have a responsibility in building a sustainable society and that Environmental, Social and Governance (ESG) best practices are a long-term driver of investment performance.

Amundi, as the largest European asset manager and among the top ten globally, has been a leader of the financial sector in the pursuit of responsible investment policies. We were one of the founding signatories of the United Nation Principles for Responsible Investment (UNPRI). At Amundi, our commitment is not only to track ESG trends but also to influence the ESG agenda of the financial industry, in a responsible investing market that is growing rapidly.

We believe that the integration of ESG dimensions within our investment decision process allows for a more comprehensive assessment of investment risks and opportunities. In a world where intangible assets represent an important part of the overall valuation of companies, the ESG investment dimension makes it possible to capture the decisive criteria over the long term.

We are convinced that following environmental, social and governance principles in our investment process will have a positive impact on long-term performance. For that reason, the Amundi Funds Prospectus now sets out our ESG approach, as detailed in the enclosed Shareholder Notice.

Please read the Notice carefully.

We thank you for your continued trust,

The Directors

Luxembourg, 30 November 2020

Dear Shareholder,

The board of directors of Amundi Funds (the "**Board**") would like to inform you of the following changes in the Amundi Funds umbrella:

The following information has been added to the prospectus of Amundi Funds

Environmental, Social and Governance Policy

Since its creation, Amundi has put responsible investment and corporate responsibility as one of its founding pillars, based on the conviction that economic and financial actors have a greater responsibility towards sustainable society and that Environmental, Social and Governance (ESG) is a long-term driver of financial performance.

Amundi considers that, in addition to economic and financial aspects, the integration of ESG dimensions within the investment decision process allows a more comprehensive assessment of investment risks and opportunities.

In addition to ESG integration, Amundi applies targeted exclusion policies to all of Amundi's active investing strategies by excluding companies in contradiction with the ESG policy, such as those, which do not respect international conventions, internationally recognised frameworks or national regulations.

Amundi has developed its own in-house ESG rating process based on the "Best-in-Class" approach. Ratings adapted to each sector of activity aim to assess the dynamics in which companies operate.

ESG rating and analysis is performed within the ESG analysis team of Amundi, which is also used as an independent and complementary input into the decision process.

The Amundi ESG rating is an ESG quantitative score translated into seven grades. They range from A (the best scores) to G (the worst), with securities belonging to the exclusion list corresponding to a G rating.

The Amundi ESG rating aims to measure the ESG performance of an issuer, e.g. its ability to anticipate and manage Environmental, Social and Governance risks and opportunities inherent to an issuer's industry and individual circumstances.

More detailed information including Amundi's ESG policies and rating methodology are available at www.amundi.com

ESG Investment Objectives

Various Amundi Funds' Sub-Funds (as shown below) integrate ESG factors in their investment process and also aim to achieve a portfolio ESG score above the ESG score of its benchmark or investment universe (where there is no benchmark). The portfolio ESG score is the AUM-weighted average of the issuers' ESG score based on Amundi ESG scoring model. Furthermore, unless otherwise specified in the investment policy of a Sub-Fund, all Amundi Funds' sub-funds exclude all issuers specified in the exclusion list of the Amundi ESG Policy.

Consequently, the Board wishes to inform you of the ESG related changes as well as a number of other changes to various Amundi Funds' Sub-Funds:
