Dear Shareholder,

We are pleased to inform you about the following changes decided by the Board of Directors:

1. **Deletion of the reference indicator of “CAAM Funds Aqua Global”, “CAAM Funds Clean Planet” and “CAAM Funds Global Agriculture”**

With effect from the 30th September 2009, the reference to a reference indicator is deleted from the investment policies of “CAAM Funds Aqua Global”, “CAAM Funds Clean Planet” and “CAAM Funds Global Agriculture” according to the fact that global reference indicators are not an adapted reference for thematic Sub-Funds.

2. **Introduction of Performance Fees on “CAAM Funds Volatility Euro Equities” and “CAAM Funds Volatility World Equities”**

With effect from the 1st October 2009, a performance fee will be introduced on the I, I(14), M, C, C(2), C(4), S and H Classes.

The mechanism that will be applied is the following one:

“A Performance fee, defined as follows, has been added to the Management fee for the classes and/or for the Sub-Funds as listed in the following tables.

Daily performance of the relevant Class is calculated on the basis of the change in Net Asset Value per share of the relevant Class (Performance Fee excluded) multiplied by the number of shares of the day.

The performance of each relevant Class is compared with the Performance of the reference indicator (the "Performance Base") of the relevant Sub-Fund.

Performance base:

On a daily basis, the change in the value of the reference indicator is applied to amounts invested during the observation period for the I, I(14), M, C, C(2), C(4), S and H classes (i.e. Net Asset Value at the beginning of the observation period, added to net subscriptions/redemptions over the same period) for the following Sub-Funds:

<table>
<thead>
<tr>
<th>Sub-Funds</th>
<th>Reference Indicator</th>
</tr>
</thead>
<tbody>
<tr>
<td>Volatility Euro Equities</td>
<td>7% per annum minus fees* applicable to each relevant class</td>
</tr>
<tr>
<td>Volatility World Equities</td>
<td></td>
</tr>
</tbody>
</table>

* Are included the Management Fees, the Administration Fees and the "taxe d'abonnement".
Each net collection (subscriptions – redemptions on day x) shall contribute towards forming the provision for Performance Fee over the Observation Period or to the amount of Performance Fee due at the end of the Observation Period.

Observation period

The observation period (the « Period ») is at least one year and up to three years maximum. The mechanism applied to determine the term of the Period is the following:
- At the end of the first year, the performance fee accrued for the relevant class is definitively acquired. A new Period starts from scratch.
- In the absence of Performance fee accrued at the end of the first year, the Period follows through a second year. At the end of this second year, the accrued performance fee is definitively made. A new Period starts from scratch.
- In the absence of Performance fee accrued at the end of the second year, the Period follows through a third year. At the end of this last year, a new Period starts from scratch regardless of the perception or not of Performance fee.

For the "Volatility Equities" Sub-Funds, the first Period will begin on October 1, 2009 and end on September 30, 2010. Within each Period, each year will end the last banking day of September.

General

- If, over the Period, the relevant Class outperforms the Performance Base of the relevant Class, the variable proportion of Management Fees shall be 20% of the difference between the cumulative performance of the relevant Class and the relevant cumulative Performance Base.
- If, during the Period, the relevant Class outperforms the Performance Base from the start of the Period calculated over the same period, such outperformance shall be subject to a provision for Performance Fee when the redemption value (i.e. the Net Asset Value per share of the relevant Class) is calculated.
- If, over the Period, the relevant Class underperforms the aforementioned Performance Base, the variable proportion of the Management Fees shall be nil.
- If the relevant Class underperforms the Performance Base between two redemption values, any provision previously posted shall be readjusted by way of provision adjustment, the upper limit on provision re-adjustment being the sum of prior allocations over the period from the start of the Period.
- The said variable proportion shall only be definitively due at the close of each Period if, over the Period, the relevant Class has outperformed the Performance Base.
- The above Performance fee shall be directly charged to the statement of operations of each Class of Shares of the relevant Sub-Fund.
- The Auditor of the SICAV shall verify the method of calculating the Performance fee.
- The Performance Fee is payable on an annual basis.
