The board of directors (the "Directors") of BlackRock Global Funds (the "Company") is writing to advise you of changes that it proposes to make to the World Energy Fund (the "Fund"), which is a sub-fund of the Company.

The changes set out in this letter will take effect from 4 December 2020 (the "Effective Date"), unless otherwise stated herein, and this letter forms notice to Shareholders of the facts set out below.

Terms not defined herein shall have the same meaning as set out in the prospectus currently in force (available at www.blackrock.com) (the "Prospectus").

Change of benchmark index

The Fund invests at least 70% of its total assets in the equity securities of companies, the main business of which is in the exploration, development, production and distribution of energy.

The Fund is actively managed and its current risk benchmark, MSCI World Energy 10/40 Index (the "Current Index"), is representative of the Fund's investable universe and is designed to ensure UCITS compliance. However, the Current Index makes it difficult to actively manage the securities invested in and creates a risk of breaching UCITS rules. In addition, in recent years the concentration of issuers in the Current Index, with the number of constituents falling from over 80 to around 50, has increased the risk of inconsistency with UCITS rules and the need for an extraordinary rebalance to restore UCITS compliance. This has created a need for the Manager to reassess the level of active risk taken by the Fund (i.e. degree of deviation from the Current Index).

The Directors are of the view that it is in the best interests of investors to change the Fund's benchmark to a custom version of the Current Index which has a 30% buffer: "MSCI World Energy 30% Buffer 10/40 Index" (the "New Index") from the Effective Date. The design of the New Index means it has a lower likelihood of breaching the UCITS rules.

In addition to better reflecting the Fund's investable universe, the New Index will replace the Current Index as a means of measuring the performance of the Fund, from the Effective Date.

The change described above will have no impact on the Fund's investment objective and policy, and no change to the Fund's existing risk limits.

Costs

BlackRock will be responsible for meeting the costs of producing and posting this letter and amending the documentation of the Fund to reflect the change described above.
